Information Technology

**Department of Artificial Intelligence and
Data Science**

Student Name: Sathe Onkar Abasaheb

Class: SY - B

Division: B

Roll No : 272078

Semester: IV

Academic Year: 2024-25

Subject Name : SE

Assignment No: 4

Title of Assignment: Activity diagram

Date of Performance: 19/02/2025

Date of Submission: 28/02/2025

Activity diagrams

Introduction to Activity diagram's:

- Activity diagram is another important behaviour diagram is UML diagram to describe dynamic aspects of system. activity diagram is an essential advanced version of flow chart that modeling the flow from one activity to another activity.
- Components of Activity diagram's:
 - Activities:
 - It is behaviour that is divided into the one or more actions activity are the network of node connected.
 - Activity Position:
 - A high level grouping of set of related action
 - A single Partition are referred too many things such as classes, use cases, components.
 - Fork or join nodes:
 - Using Fork & join nodes concurred flow within an activity can be generated.

3) Applicability.

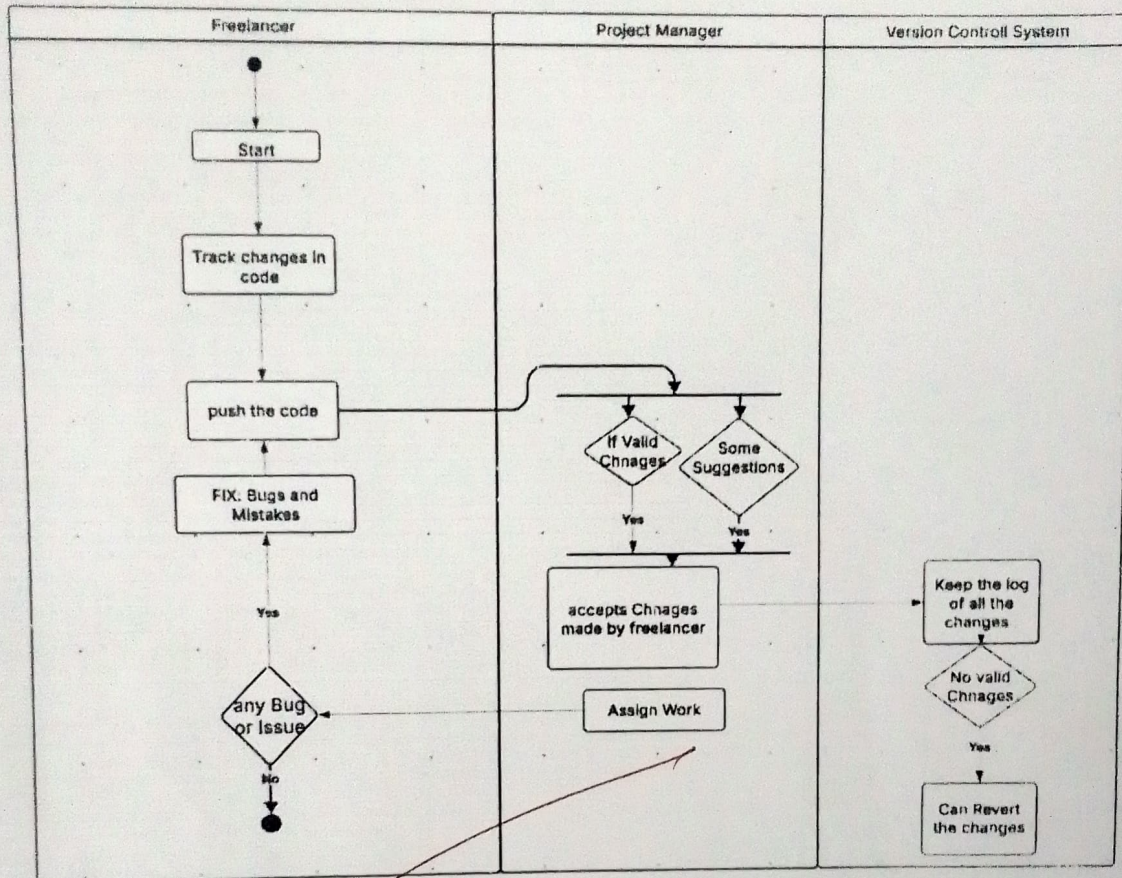

- It is suitable for modelling how a relation use cases co-ordinate and represent the business work flows.
- 1) Identify co-ordinate use cases through the examination of business workflow.
- 2) Identify Pre & post conditions for use cases
- 3) Model work flow bet the use cases
- 4) Differentiate betⁿ flowchart sequence diagram & activity diagram.
- The sequence diagram represents the UML which visualize the sequence of calls is a system that used to perform flowchart is diagrammatic representation of an illustration a solution model to a given problem.

4) Activity diagram of StarUML

An activity diagram visualize presents series of action or flow of control in a system similar to flowchart or a data-flow diagram.

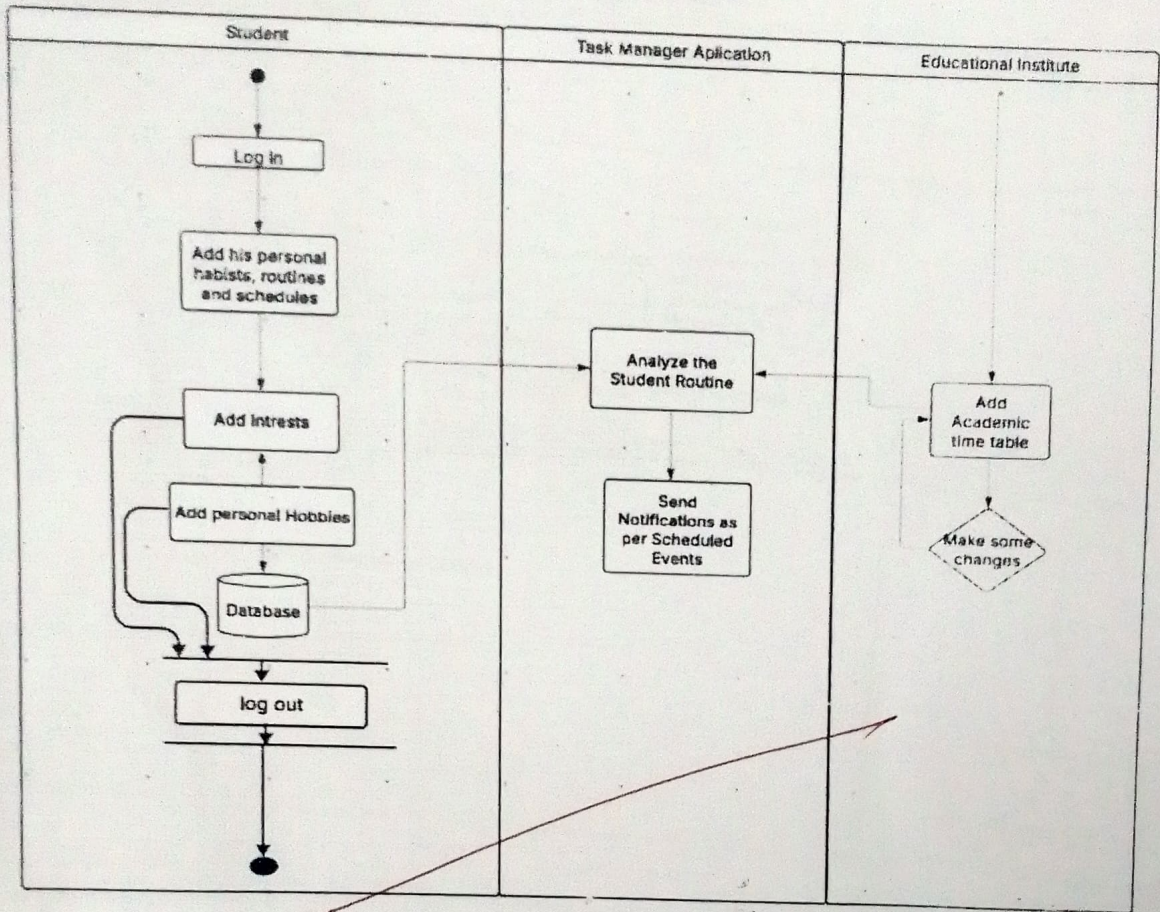

OPS: Freelancer Trying to Manage, collaborate, Track changes in code.

Version Control System

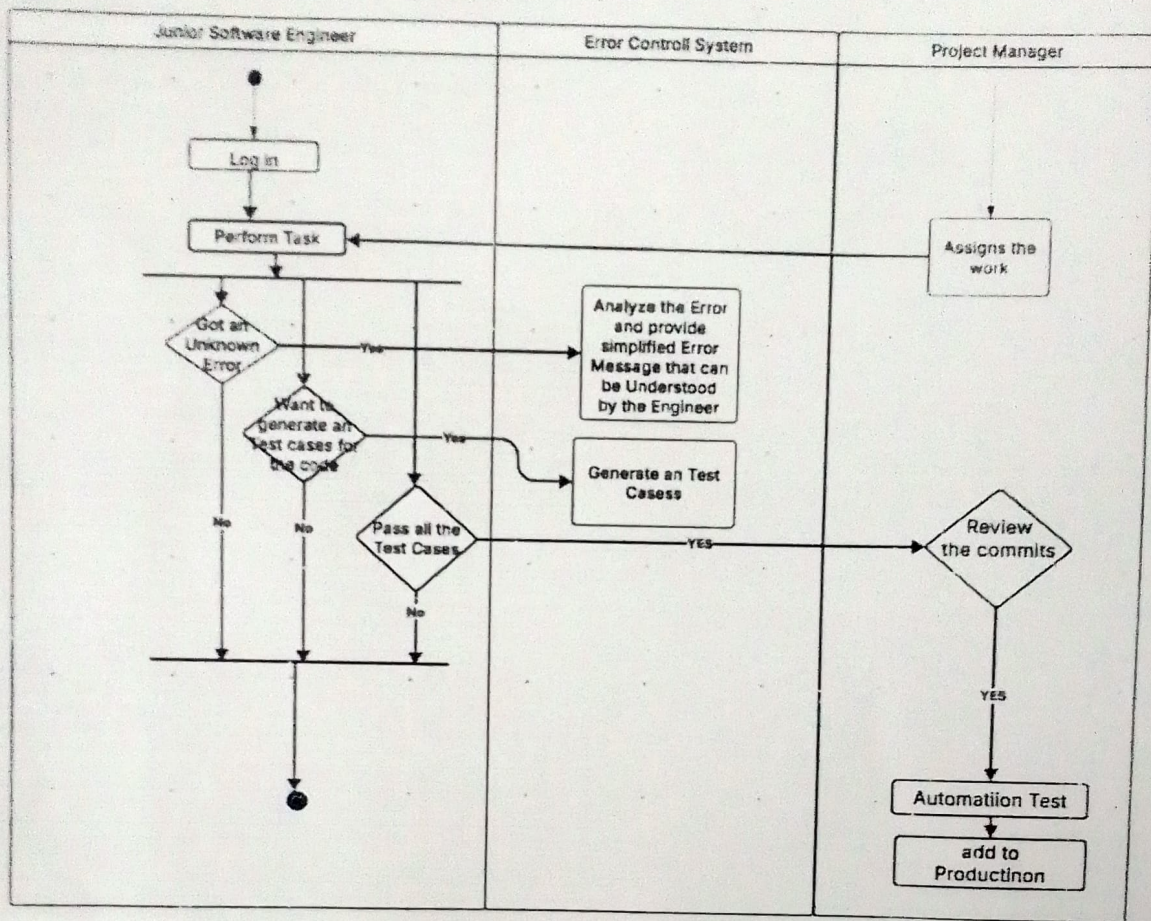

CPS : Balancing Academic Responsibilities with personal time.

Task Management System

CPS : Junior Software Engineer Trying to fix Error's in code & Make it work correctly.

Readable Code Review System for Junior Software Engineerrrs

lonely } Activity diagram's are valuable tool's for Visualizing behaviour of system and flow, here we learned to create an activity diagram's.
